Mohamad Moumneh

Full-Stack Developer — Laravel & React
Beirut, Lebanon | +961 81809597 | mmoumneh14@gmail.com
mohamadmoumneh.com | LinkedIn | GitHub

SUMMARY

Full-Stack Developer (Laravel + React) graduated May 2026, with four software roles across telecom, fintech, and IT operations, plus a production civic-tech platform built end to end. Focused on secure REST APIs, real-time systems, and clean, maintainable architecture.

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern — Touch Lebanon *Aug 2025 – Sep 2025*

- Built a modular CMS with a Laravel API backend and React frontend, including multi-role dashboards (Super Admin, Business Admin, User) and Laravel Sanctum authentication
- Resolved CSRF/XSRF issues and refined Nginx configuration to stabilize backend–frontend communication and login reliability
- Created reusable React components and dashboard analytics (KPI cards, charts, activity tracking)

Backend Developer — XpertBot (Remote) *Oct 2024 – Mar 2025*

- Built backend services with Laravel, PHP, and MySQL, designing data models and REST APIs for efficient JSON-based communication
- Implemented authentication and authorization workflows to harden access control and improve reliability
- Used Git/GitHub for version control and collaboration across frontend and backend teams

Software Developer — Ciatek IT & Software Solutions *May 2024 – Aug 2024*

- Built REST APIs with Python (Django Ninja), integrating WooCommerce and internal systems for data synchronization
- Delivered a responsive web app using React.js, Vite, TypeScript, and Tailwind CSS
- Added structured error handling and logging to improve system reliability

IT Operations Analyst — Bank Audi, Lebanon *Oct 2023 – May 2024*

- Provided end-user and infrastructure support, resolving hardware/software issues to maintain system stability
- Monitored infrastructure and managed remote access (FortiSIEM, PuTTY) and Active Directory environments

PROJECTS

CommuTech — Civic Issue Reporting Platform *(Final Year Project)* Laravel 12 · React Native (Expo) · PostgreSQL/PostGIS · Pusher

- Built a full-stack mobile and web platform connecting Lebanese citizens, field workers, and municipal admins for real-time civic issue reporting and resolution
- Implemented geospatial municipality detection with PostGIS (ST_Contains) and live map synchronization via Pusher WebSockets
- Added role-based access for three user types, in-app chat, and QR-code issue tracking on public status pages

Personal Portfolio — mohamadmoumneh.com React 19 · React Router v7 · Vercel · Google Analytics 4

- Designed, built, and deployed a responsive multi-page portfolio with lazy-loaded routes and an optimized production bundle
- Set up CI/CD on Vercel (auto-deploy on push), a custom domain via DNS (A + CNAME) with automatic SSL, and GA4 visitor tracking

EDUCATION

Bachelor of Technology in Computer Science (BTCS) — Antonine University (UA), Baabda *May 2026*

TECHNICAL SKILLS

Backend: PHP (Laravel), Python (Django Ninja), Java, C++, REST APIs, JSON
Frontend: React.js, React Native, TypeScript, JavaScript, Tailwind CSS, Vite, HTML, CSS
Databases: MySQL, PostgreSQL, PostGIS, PL/SQL, ER Modeling
DevOps & Tools: AWS, Git, GitHub, Nginx, Pusher, Postman, Vercel

CERTIFICATIONS & LANGUAGES

Certifications: AWS Certified Cloud Practitioner (CLF-C01); Google Foundations of Cybersecurity; Meta Intro to Front-End Development; Duke Java Programming
Languages: Arabic (Native), English (Fluent), French (Intermediate)
